

eVidyaloka is an aspiration to transform the education landscape in the rural and remote parts of India.

Today we have good enrollment and infrastructure in the Govt. schools. And the need of the hour is to impart quality in teaching. The lack is due to shortage of teachers and quality in available teachers.

The supply of quality teaching may not exist where it is required, but they are spread across the globe. The role of eVidyaloka is to play the bridge in bringing them together on a common platform by connecting and empowering people and applying technology and help the children to reap the intended benefits.

Why we need Volunteers:

eVidyaloka believes in involving and empowering as many people as possible in this journey of enabling quality in education, from wherever they are. All of the results, ranging from Teaching, content dev, IT, Admin, so far are an outcome of volunteer contributions.

@eVidyaloka,

Volunteering = Passion + Ownership

Teach online

Be a part of the solution. One can teach, without having to change any of the personal commitments or priorities. Passion and a bit of familiarity to use Skype, makes you a valuable person to our children. in imparting education

Contribute to contents

Nervous about being online and live? Not sure of your schedules ? But passionate about education. Sure, you can contribute in building the contents, to be used by Teaching volunteers, on your pace and schedule.

Administer the Class

Acads has never been your cup of Tea ? Running the show is your strength ? Sure, be a Class Admin, and here is a chance to tell Teachers, what to teach ☺. You only need to speak the local language and be on skype, phone and emails.

What is required?

- Passion to teach children
- Commitment to deliver on time
- Graduate qualified
- Access to PC ,Broadband Webcam and Headset (for Teaching online)
- Willing to be Patient & Responsive

How eVidyaloka works?

- A digital class room at the village
- Teachers – spread across the globe
- Contents – Online Text book, enriched with multimedia aids, & language support
- A class operating framework (through IT) that brings the Teachers and Children together
